and strain one pint of sugar, dissolved in the juice; one lemon, juice only; half nint water. Higher Education.

In this country women have entered

the field of science as well equipped and with as strong and correct a spirit of invertigation as the men. they occupy a high position in the med-ical profession and old practitioners are no longer afraid of losing caste by meeting women doctors in consults tion. Many American women gradu ates are taking a post-graduate course in biology and the study of lower or ganic life. Higher special work is largely confined at present to women of scholarly leisure and liberal income The best facilities for pursuing these

With Your Can of Coffee

Plays the piace in with two other men and the invalid who is tired of the the bearding-some partials and talks politics agg tonic mixed with sherry, a for white a fellow for an hour, when the distilless the taste of a raw egg. The invalid who is tired of taking her egg tonic mized with sherry, and wh tor white it fellows for an near to a glad to know that the egg may bearder is trying to fellow bourder is a glad to know that the egg may entertain company at young somen and the fectually disguised in a cup of coffee attention of the company of the opposite the coffee to the taste, with the coffee to the coffee to the coffee to the coffee to the taste, with the coffee to the coff thoughtfully remaindered.
